Grant- Update report submitted by Jennifer Sommerfeldt

On March 21st, the steering committee met with our grant representative via phone to get clarification. It was a very productive conversation, and we have some great news! In terms of activities covered by the grant money, the list of eligible spending is specific. We had that handout at the last meeting, and it applies to all grant-related expenditures. ***However, the eligibility restrictions DO NOT apply to anything funded from dollars that did not come directly from the grant.***

This means that there are no restrictions on our activities for the day. We can have food trucks, donation boxes, paid for meals/snacks, etc. There are no strings attached to anything that was funded with dollars that did not come directly from the grant.

So, what does this mean for us? It means that the arena rent cannot be paid for by the grant money to host just the dinner since the dinner is not an eligible expense. But the grant money WILL pay for the outdoor tent where our musical guests will perform.

It means that groups, such as the church, CAN have a donation box set up, but it must clarify that these donations are for the church and are not affiliated with the Centennial events.

It means that the Lionettes, who have an eligible activity planned, can also have a food truck present to serve lemonade and pie because the food truck receives no grant funding.

It also means that even though the hall is booked for the Lionettes, the kitchen is not and so the Lions can do their breakfast at the kitchen and the grant money will pay for the big room while outside dollars will pay for the kitchen.

It means that Memory Lane can charge for their hot dogs. However, if the hotdogs are DONATED for the purpose of the centennial, money from the hotdog sales must go to the centennial and be accounted for properly. Alternatively, hotdogs that are donated for the purpose of the centennial and are given away to our visitors with a Memory Lane donation box set up nearby (and it is clearly labeled that donations are not affiliated with the centennial), then Memory Lane can keep those donations.

It will be up to the steering committee, when we provide the report on the grant, to make sure that the money is accounted for correctly.

Furthermore, donations from individuals/cash will only have to be reported as a total dollar amount. And donations from our local community partners (i.e., businesses & municipality) will have to be named with their donation in terms of dollar amounts or in-kind contributions.

So, the great news is that we don't have to worry about restrictions. Anything we want to do that does not meet grant eligibility will simply not be paid for by the grant. That said, it does mean that anything which needs funding **from** this committee must be fundraised **by** this committee.

With that in mind, organizations that can contribute to their own centennial plans are strongly encouraged to do so. If groups do not get their full budget approved, it will be up to the group to find ways to cover their remaining costs. We want to avoid using our fundraising efforts for anything not directly related to the centennial celebration.

As we move forward and approve budgets in the coming weeks, our mission is to do what we can to make the day as easy as possible for our visitors to enjoy Standard's showcase of history, talents, and contributions. I think it will be a great day!

Village of Standard Centennial Celebrations
